

The Voices of Users of the Tokyo One-Stop Business Establishment Center

95% of the users of TOSBEC answered that the services were “very helpful” or “helpful.”

Sosuke Kubo, CEO, freecle Inc.

I decided to start a business using IT to contribute to society after an internship in my fourth year of university. I started my business based on my experience working at a major IT company, consulting, and a company experienced in marketing strategy. The One-Stop Business Establishment Center can handle everything to start a business, and their experts can give you the right advice on the spot. I was busy with work and did not have time for stuff like creating a business plan or administrative procedures, so I was incredibly thankful that this work could be done efficiently. In particular, being shown how to fill out application forms and other paperwork in detail and not having to prepare anything when setting up the company made a big difference in terms of effective use of time. They are a powerful ally for young entrepreneurs.

Eri Kinami, President, Table d'hotes Co., Ltd.

While working as a freelance writer for many years, I realized that I could be replaced by anyone. I wanted to do work in which I was indispensable. With this idea in mind, I began to think about starting a business. I decided that I would do my own things and the paperwork by myself, and I made a boilerplate articles of incorporation by searching on the internet and elsewhere. I then took that to the One-Stop Business Establishment Center. All the counselors were very kind and friendly when I visited their office. They gave me accurate and specific advice, which was a big help to me since I did not know anything. If you do not know how to set up a company and are hesitating, the first thing you need to do is visit the One-Stop Business Establishment Center.

Hyojun Yu, Founder, Yu Fruits Co., Ltd.

After I started working at a trading company that imported fruit into Japan, I decided to start a business that would play a role to connect fruit-growing areas with consumers. TOSBEC has a good reputation as a facility that offers everything to start a business in one place, which was more important to me than doing the paperwork. They have advisors who will work with you to create a business plan. The small and medium-sized business consultant I spoke with was able to take the business I had in my head and turn each individual piece into something specific. I would not have been able to start my business without TOSBEC. That may sound like I am exaggerating, but that is what the Center can do for you.
