Tokyo Metropolitan Government

## Invest Tokyo Online Seminar to be held for Hong Kong

In order to enhance Tokyo's presence in the world as an economic leader, the Tokyo Metropolitan Government (TMG) is actively taking policy and regulatory measures to grow the Japanese financial market. Through these measures, the TMG aims to achieve its "Global Financial City Tokyo" goal, launched in 2017, looking to become the next top international financial hub. To do so, TMG is establishing a strong startup ecosystem where collaboration between governments, entrepreneurs and other key stakeholders will foster innovation and the creation of new technologies, ultimately enhancing citizens' lives.

The TMG launched the "Team Invest Tokyo" in October as one of the projects of the "Startup Ecosystem Tokyo Consortium", on a public-private partnership format.

The TMG is pleased to announce that the following "Invest Tokyo Online Seminar" will be targeting Fintech and asset management businesses in and around Hong Kong to join the discussion.

### **About “Invest Tokyo”**

The “Invest Tokyo” project is a set of initiatives by the Tokyo Metropolitan Government (TMG) to attract foreign business to Tokyo. TMG is currently focusing on companies with cutting-edge technologies related to Industry 4.0 (AI, robotics, VR/AR, blockchain, etc.) and finance (asset management and fintech), providing free support programs for businesses and entrepreneurs, and creating innovation ecosystems.
