Tokyo Metropolitan Government

**Invest Tokyo online event "Focus in Tokyo" to be held**

The Tokyo Metropolitan Government (TMG) is implementing a variety of measures to revitalize the financial sector and attract foreign companies to further strengthen its earning power and increase its international presence, with the aim of making Tokyo an international financial center.

In particular, in order to create a virtuous cycle of and economic growth in the current Corona disaster, it is essential to attract foreign companies with advanced technologies related to the fourth industrial revolution to Tokyo and promote the formation and development of a startup ecosystem. In addition, with an eye on a post-COVID19 Tokyo, we are focusing on expanding the green finance market and attracting foreign companies related to asset management and fintech in order to realize a "sustainable recovery" from a financial perspective.

We are pleased to announce that for the first time, we will be holding a series of Invest Tokyo online events called "Focus in Tokyo" for foreign companies and others interested in expanding into Tokyo. This event will be held by the TMG in collaboration with local overseas organizations to directly approach local companies and other organizations.
